YOUR TRUSTED PARTNER
IN MOTION & AUTOMATION

PRODUCT CATALOGUE

PNEUMATIC SOLUTION
FOR A BETTER INDUSTRY

www.mediapneumatic.com

PROFILE COMPANY :

PT Media Pneumatic was established in November 2008. PT Media Pneumatic provides a wide range of pneumatic product and lubrication system product. Media Pneumatic committed to provide genuine goods with good quality & the best service to all customer, competitive price & short delivery times also very important to our company.

PT Media Pneumatic is an Authorized Distributor of : CKD, E.MC, CHENYING, SHOWA, GRACO, GLOBE, BTB, AIRWAY tube, GRUNDFOS, FIPA, ZIMMER, GRACO, SUMITOMO.

Our Vision: PT Media Pneumatic being THE LEADING COMPANY in the supply of pneumatic products and lubrication products, both in term of good quality, price, prompt delivery time and best after sales services to our customers.

This is Inside Our Facility the Backbone of Our Seamless Supply Chain

ZHEJIANG ETHERNAL AUTOMATION SCI-TEC CO., LTD.

Letter of Authorization

Authorization Number: E-MC-2026-001

We, ZHEJIANG ETHERNAL AUTOMATION SCI-TEC CO., LTD., the possessor of "E-MC" brand,

Hereby authorize PT. MEDIA PNEUMATIC as E-MC brand Sole agent in the country of Indonesia.

PT. MEDIA PNEUMATIC is responsible for E-MC brand pneumatic products sales, marketing, after-service in the area specified above.

CERTIFIED DISTRIBUTION CERTIFICATE

GLOBE AIRMOTORS by hereby declares that:
PT. Media Pneumatic/ PT. Media Pneumatic:
Address:
Ruko Green Garden Blok Zili no. 51 Rt,
Kedoya Utara-Kebon Jeruk
Jakarta, Indonesia

is our certified distributor since 2012 for the next products and territory:

Products and Territory

A. The contractual products are:
GLOBE Vane Air Motors
GLOBE Piston Air Motors
GLOBE Compact Piston Motors
GLOBE Compact Vane Motors
GLOBE Geared Vane Motors
GLOBE BN Brakes

B. The contractual territory is:
Indonesia

Date: 19-01-2025
Place: Alphen aan den Rijn, The Netherlands
Name: J.G.G. Wannet
Position: Director (C.E.O.)

Expiry date: 31-12-2025

SHOWA CORP.

2-9-31, AZUSABA, ITABASHI-KU, TOKYO, 174-0051, JAPAN
TEL.: 03-3967-3295 FAX: 03-3967-0044

Dec. 1, 2023

Certificate of Distributor

We hereby confirm that PT. Media Pneumatic is our official distributor in Indonesia for Showa products of oil lubricating equipment.

This company has responsibility of dealing Showa products manufactured in Japan and supporting users in Indonesia.

This certificate is effective from December 1, 2023 to November 30, 2025.

Kanji Ishii
Manager, Sales Department
Showa Corporation

Chen Ying Oil Machine Co., Ltd.

No.501, 2th St., Wuzi Dist., Taichung City, Taiwan 435054

TEL: +886-4-26393751-7 FAX: +886-4-26393939

Email: sales@chenying.com.tw Website: www.chenying.com.tw

The Effective Date of this Agreement starts on January 1st, 2025 to December 31st, 2027.

This Agreement is by and between Chen Ying Oil Machine Co., Ltd. (Chen Ying) AND PT. Media Pneumatic (Media).

Purpose of this Agreement

Chen Ying Oil Machine Co., Ltd. is in the business of developing, marketing and supporting Chen Ying products. Media wishes to distribute Chen Ying products in its country-Indonesia and is able to do the after-sale service. Media wishes to obtain the permission from Chen Ying. Chen Ying is willing to grant to Media as non-exclusive right to distribute Chen Ying products for resale purposes.

In consideration for the mutual promises, covenants, and agreements made below, the parties, intending to be legally bound, agree as follows:

1. Terms

a. The quotation is based on the supplier's C&F, CIF or Ex-Work prices.
b. Payment Term: The distributor agrees to remit the payment in advance before the shipment.

2. Distributor's Responsibilities

a. Create business potential for Chen Ying products.
b. Promote Sales of Chen Ying products.
c. Provide stocking facility display Chen Ying products.
d. Provide service/after-sale service support for Chen Ying products.
e. Having certain items in stock in order to providing immediate delivery to customers.

3. Supplier's Responsibilities

a. Offering competitive prices of all Chen Ying products.
b. One year warranty with all Chen Ying Products.
c. Updating if Chen Ying has new products and providing leaflets.
d. Provide technical support upon the request.

Semi Conductor Manufacturing Processes

Products used for pressure control of liquid/gas/vacuum/chemical air from semiconductor device production facilities to production process equipment.

Welding Processes

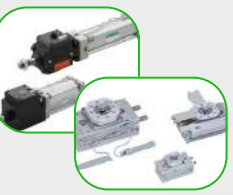

Products that can be used in processes such as "clamping", "positioning", "moving", and "press-fitting" in spot and arc welding of automobile bodies and parts, and products that can meet the demands of "environmental resistance" and "safety".

Car Electronics

Products that can be used in processes such as "clamping", "positioning", "moving", and "press-fitting" in spot and arc welding of automobile bodies and parts, as well as products that can meet the demands of "environmental resistance" and "safety".

P4 * Series for Rechargeable Battery Manufacturing Process

products that meet the needs of rechargeable battery manufacturing, from electrode manufacturing to packaging. Products are available to meet material restrictions, dust and dust emissions.

Pharmaceutical Manufacturing Process

Total support for hygiene, environmental resistance, and long service life required for solid material manufacturing processes with pneumatic, electric, fluid control, inspection, packaging machinery, and other assistance functions. We would like to introduce high-function products for producing high-quality pharmaceuticals.

Electric actuators
Added 17 Series
Introducing all 38 Series
ROBODEX

Food Manufacturing Process

FP Series contributes to food production lines for safe and reliable manufacturing. Food grade lubricant (NSF H1) is used for flow paths and sliding components to prevent contamination from the lubricant. Provides total support for food production based on our comprehensive engineering capabilities in packaging machinery, pneumatics, fluid control and electric motion products.

Plant Facilities / Outdoor Use

Durable and long-lasting products that meet a variety of plant equipment needs, including outdoor and explosion-proof equipment. Weather-resistant parts allow for use even in harsh environments.

Mainline Components & Air Dryers

Under the revised Fluorocarbon Act (Fluorocarbon Recovery and Destruction Act), managers of commercial air conditioning, refrigeration components are required to properly manage their components and fluorocarbons to reduce fluorocarbons (CFCs, HCFCs, and HFCs), which cause global warming and ozone layer depletion. CKD refrigeration air dryers/coolers (water cooling units) must be managed. We introduce the types of maintenance required.

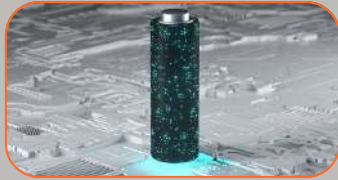

The auto industry's transition to industrial IoT requires intelligent components for production efficiency, value chain complexity, and networked manufacturing. Gripping technology and flexible solutions ensure energy efficiency and safety.

Technology innovation

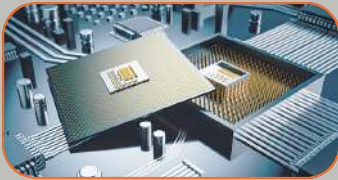

E-MC specialists meet manufacturing requirements and address technical needs for battery disposal.

Cost Saving & Productivity Improvement

We offer solutions for hybrid/electric vehicles and energy storage technologies, ensuring quality, affordability, and low-maintenance products.

Intelligent manufacturing

E-MC experts prioritize operator safety and offer energy-efficient solutions for pneumatic and electric control technologies.

Solution Optimization

E-MC provide a range of products covering mechanical and precision pneumatics, vacuum components, high-frequency technology, and fluid control.

Application Industry

Vacuum Cups:

Our range includes flat, bellows, and oval vacuum cups designed for lifting and moving goods of different shapes, sizes, and materials without causing damage.

End-of-Arm-Tooling:

Explore our catalog for a variety of End-of-Arm-Tooling solutions, including sprue grippers, gripper fingers, quick-change systems, air nippers, and vacuum gripping systems.

126 Series Parallel Grippers:

Our 126 series parallel grippers offer compact design, ideal for small to medium-sized workpieces, with features.

Reduced gripper volume by up to 50%
Suitable for small spaces
Lightweight due to compact design
Dust-tight construction
Double-acting, self-centring gripper jaws
Long service life
Optional piston position detection
Two finger length options

Vacuum Components:

Discover our comprehensive range of vacuum components for professional vacuum generation, regulation, control, and monitoring in one catalog.

SBX-F Components:

Our large-area gripper allows for quick and easy replacement of worn components without needing to dismantle it from the robot. This ensures maximum system up-time with minimal downtime for maintenance and repairs.

Customizable Design:

Optimize the SBX-F for your requirements by choosing from various suction cell/vacuum cup sizes and design arrangements.

Gearmotors are an essential tool for many drive systems. With unique designs and configurations available, gear motors can be used to increase torque, reduce speed, reverse direction, or change the push or pull of a driveshaft. For over 80 years, Sumitomo Drive Technologies has been providing world-class gear motors, gearboxes, and speed reducers, featuring industry-leading technology with fully integrated premium efficient motors.
